

Statistical Basics for PhD Students, Part II

6 January- 10 February 2026.

The course is held as an online course.

The course is designed as the ***Flipped Classroom*** and is organized in the following way:

- The first meeting on Tuesday, **January 06**, is dedicated to clarifying the conditions and schedule of the course.
- Every week on Tuesday at 10 a.m. starting on **January 06**, the lecture notes and exercises on the topic of the current submodule are uploaded to StudIP for **self-study**.
- Until Monday 10 a.m. of next week (the day before the submodule discussion), course participants must submit solutions to the exercises (as R code) and at least 5 questions/suggestions for the current submodule discussion.
- The online submodule discussion is held every Tuesday from 1 to approx. 3:30 p.m. The discussion is organized as a **targeted lecture based on the questions/suggestions of the course participants**. Participation in the module discussion is mandatory.
- In the case that questions arise during the homework, a question time in a virtual classroom is offered for each submodule. Participation in this question time is voluntary.

Important! Before starting the course, it is very recommended to check if the required time for self-study and homework is available.
